PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented IT professional with hands-on experience in UI/UX design, front-end development, and modern AI-assisted workflows. Eager to contribute to dynamic teams, deliver intuitive digital experiences, and grow within innovative, fast-paced environments.

EXPERIENCE

Junior UI/UX Engineer | *Remote — Taguig, BGC* Oct 2024 – Present

- Designed and iterated on user interfaces using Figma, keeping consistent design systems across web and mobile platforms to ensure brand coherence and accessibility.
- Collaborated closely with product managers and developers to translate wireframes and prototypes into polished, production-ready UI components using VurChampioned the team's transition to AI-assisted and vibe-coding workflows, integrating tools such as GitHub Copilot and AI-powered design assistants to accelerate prototyping and reduce iteration time.
- Contributed to prompt engineering practices for AI tools, helping the team standardize how generative AI is used in design reviews, component generation, and UX copy refinement.
- Conducted user research, usability testing, and heuristic evaluations to identify pain points and inform data-driven design decisions.
- Managed design tasks and sprints using Jira, ensuring timely delivery aligned with agile development cycles.

Front-End Developer | *Freelance — Florida, USA* Dec 2023 – Oct 2024

- Built a live mentoring platform from concept to launch — designed an intuitive, visually appealing UI and ensured full responsiveness across devices for an optimal experience on both desktop and mobile.
- Utilized Solid.js to develop dynamic, interactive user interfaces while applying UI/UX principles to drive user engagement and satisfaction.
- Managed the full design process end-to-end, coordinating tasks and timelines using project management tools to consistently meet deadlines.
- Conducted thorough testing and debugging cycles to identify and resolve issues, delivering a stable and reliable platform.

Web Developer Intern | *New Media Services Philippines, Loakan, Baguio City* Mar 2023 – Jul 2023

- Completed six hundred hours of On-the-Job Training.
- Participated in daily stand-up meetings and sprint planning sessions to discuss progress, set goals, and allocate tasks effectively within the team.
- Conducted code reviews and provided constructive feedback to peers to ensure code quality, consistency, and adherence to coding standards.
- Conducted usability testing and gathered feedback from internal stakeholders to identify areas for improvement and refine the user interface design and functionality.

SKILLS

Web Development | UI/UX Design | Design Systems | Wireframing & Prototyping | Responsive Design | AI-Assisted Design | Agile / Scrum | Time Management | Problem Solving

TOOLS

Visual Studio Code | Figma | Git & GitHub | Jira | Claude Code

EDUCATION

Bachelor of Science in Information Technology
STI College Baguio | Jul 2019 – Jul 2023
